

ASIA BUSINESS SIMULATION 2026

A real-world business simulation for future business leaders
Supported by **Indonesia Stock Exchange (IDX)**

WHY THIS OPPORTUNITY MATTERS

**Tomorrow's economy
depends on today's students.**

Every year, thousands of talented students possess great potential, but many still lack access to practical business and entrepreneurship education.

Asia Business Simulation (ABS) bridges that gap by giving students real-world business experience beyond the classroom — and this year, we would love your students to be part of it.

“

“Together, we can give your students a stage to think strategically, lead confidently, and discover their potential as future business leaders.”
